

NORTHEAST INDIANA WRAPAROUND
DeKalb • LaGrange • Noble • Steuben

2008 Consortium Calendar

Why come to a consortium? To learn about, support, and actively participate in your counties System of Care. A System of Care is a well integrated, collaborative, and comprehensive spectrum of community services aimed at providing support to children and families. Systems of Care should be affective, easily accessed, family centered, culturally competent, reduce redundancy, collaborative, and cost affective to the families and service providers.

What to expect? Each county consortium will be an hour and half and lunch is provided. Current services provided by Northeast Indiana Wraparound and its partners will be outlined. A representative from throughout the state will present on various topics that are related to systems of care within Indiana. Specific presenters and topics will be provided as we approach consortium dates. A lunch will be provided with time for outlining current System of Care, discussing community strengths and needs, and networking.

County, Dates, Locations: All county consortiums are from 11:30am to 1pm.
